

Why vote for Steve Scheetz to be LPPA Chairman?

He:

- Will only endorse candidates who stand on a platform supported by Libertarian Ideals
- Will live the non-initiation of force/fraud Oath
- Will help with projects that utilize Libertarian Solutions
- Will encourage/help people wanting to run for office as Libertarians
- Will work toward raising awareness of Libertarian Principles statewide
- Will NOT sacrifice principles in order to gain more votes
- Counties will be free to endorse or not, any candidates embraced by the LP
- Will NOT run as a candidate for any party other than the one I am chairman of
- Will NOT ban/censor free speech
- All Committees will be autonomous providing they function lawfully

My name is Steve Scheetz; I have held leadership positions in clubs and committees as well as been the organizer of events that raised money for charities such as the Cystic Fibrosis Foundation. I have worked with government; I have worked around government with the goals of improving my community with no cost to those people living in it. I have spent more than two decades as a Libertarian, campaigning for candidates like Lee Houstead, I have put signs out and worked polls for James Babb, Ken Krawchuk, Chuck Moulton just to name a few.

There is a growing need for Liberty everywhere, but we have a problem. The Leadership within the LPPA does not know how to make Liberty work, and if it does not know, the people cannot be expected to understand! I plan on demonstrating how Libertarian Solutions work by fixing problems in Pennsylvania! For too many years, the LPPA has been ghost like. This MUST change, and I will work with the county leaders to make this happen. Let's make our organization the LEADER in solving problems created by Government and Bureaucracy!
